STONES FOR LIFE - STONES BY DENFORM

As a producer, it is important to stand out. To be able to generate new and untraditional ideas within the overall framework.

To present a product line which is always one step ahead.

To signal development and creativity within technique and design.

The result of which you are now holding in your hand. A catalogue full of exciting products with an exclusive design – and of course, coupled with cutting edge technology.

Stones by DenForm has been designed by top designers from Denmark and abroad and is fitted with the latest DenForm technology.

Som producent er det vigtigt at skille sig ud fra mængden. At tænke nyt og utraditionelt indenfor rammerne. At præsentere et udvalg af produkter som altid er et skridt foran. At signalere udvikling og kreativitet indenfor teknik og design.

Resultatet er dette katalog fyldt med spændende produkter i et eksklusivt design - og selvfølgelig kombineret med avanceret teknik.

Stones by DenForm er designet af danske og udenlandske topdesignere, og er udstyret med den nyeste teknologi fra DenForm.

The mastermind behind spas from Stones is the brand new, state-of-the-art control unit. Offering advanced functions yet free and easy to operate.

In the development process we have focused on design, simplicity, user-friendliness and fitted a child safety device on certain operations such as the cleaning function.

STONES BY DENFORM - MORE THAN JUST DESIGN.

The new series is not only about quality, design and technique, but also ensures the highest standard of bathing water.

Stones by DenForm spas exploits cutting edge technology within water treatment.

Stones Spa Clean System ensures disinfection of the water during bathing. After the bath Stones induces the cleaning fluid into the bathwater and thus cleans the tub, massage jets and tubing.

As an additional safeguard, jets and tubing are blown dry after the tub has been emptied of water.

When bathing in spas from Stones by DenForm, you bathe in the purest water in Denmark.

Stones complies with the highest standards - GS/TÜV.

Hjernen bag spabadene i Stones serien er den helt nyudviklede og avancerede styring.

Avanceret i funktioner og let at betjene for brugeren.

Under udviklingen har vi lagt vægt på design og overskuelighed, betjeningsvenlighed og børnesikring af specielle funktioner som f.eks. rensfunktionen.

STONES BY DENFORM - MERE END KUN DESIGN.

Den nye serie handler ikke kun om kvalitet, design og teknik, men også om kvalitet i badevandet.

Stones by DenForm spabade indeholder den nyeste og mest avancerede teknologi indenfor vandbehandling.

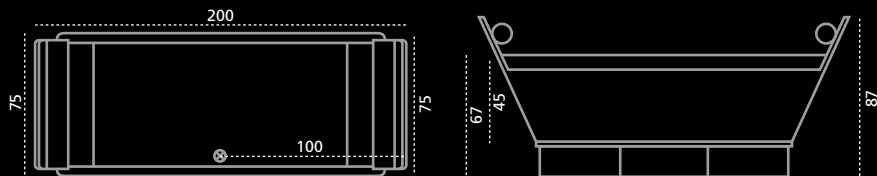

Vandet desinficeres under badning for bakterier med Stones Spa Clean System. Efter endt badning suger Stones rensvæske ind i badevandet og renser kar, dyser og slanger.

Som en ekstra sikring blæses slanger og dyser efter endt tømning tør for vand.

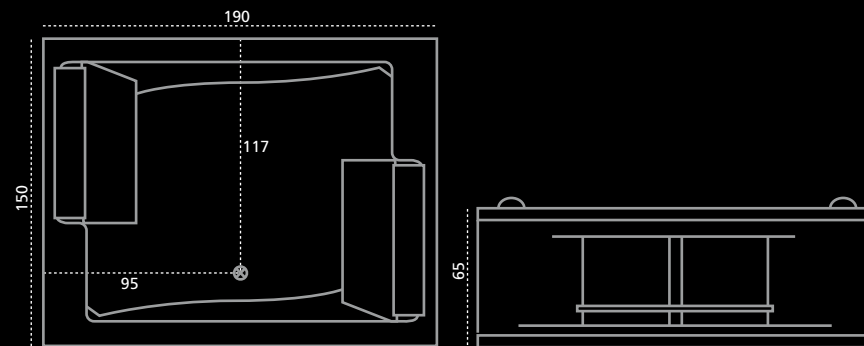

Når der bades i Stones by DenForm spabade, bades der i noget af det rene badevand i Danmark.

Stones er godkendt efter strengeste krav - GS/TÜV.
